

Juha Jurvanen | CV

Updated 2020-March-04

SUMMARY

Senior IT consultant with 25 plus years of experience in the business including server operations, DevOps, disaster recovery specialist, backup specialist and project management.

Juha also has a keen interest in all aspects of IT security and was the initiator of Syspace. He is also a Cloud Architect and has had a freelance contract as a teacher in Cloud Security.

Juha has worked within IT from many aspects and for a very long time.

His broad experience and skillset makes him more of a Swiss Army knife than a specialist of a particular product.

With that said, his knowledge and experience still puts him as an expert in his many of his fields.

His experience and expertise is suitable for both small and large environments
